SCHROEDER INDUSTRIES INTRODUCES

Bulk Diesel Multi-Skid | BDS2

May 2014 | Leetsdale, PA

Leetsdale, PA - Schroeder Industries, a recognized leader in filtration and fluid conditioning products, introduces its Bulk Diesel Multi-Skid (BDS2).

With the introduction of tier four engine designs and Ultra Low Sulfur Diesel, bulk fuel quality and cleanliness have become critical factors in equipment service and maintenance programs. Now that Schroeder Industries' has developed a wide range of Diesel Filtration products a request for a higher flow Bulk Diesel Skids (BDS2) to be designed for applications where large particulate, rust, water and scale from bulk fuel storage tanks is a concern. The Bulk Diesel Multi-Skid (BDS2) is a system comprised of two QCF Coalescing Filter, and one QL15 Particulate Filter. Having the 3 different filter housings make it possible to achieve a maximum of 140 gpm.
